

Go Green!
Get those bottles and cans recycled!
...and help our Fourth Grade Students at the same time!

Our fourth grade students are starting a new fundraiser to help defray the cost of their activities next year (including their Nature's Classroom trip). We'd like to see how much money we can raise in the months of February, April, and June.

The best part? You don't have to buy anything or do anything you don't already do!

Here's how you can help:

1. Save your bottles and cans all throughout the month of February.
2. Bring them to any local Price Chopper location near the end of the month.
3. Save (but don't cash in!) the redemption slips you get from the machines.
4. Send your 1st round of redemption slips into school – please label the envelope “**4th Grade Bottle/Can Fundraiser**” - by **February 26th**.

We'll let our whole community know how much money we make just from recycling bottles and cans – a no-cost, earth-friendly fundraiser!

Everyone can help, and no redemption amount is too small!
