

EAGLE STUDENT DIRECTORY

The Eagle Student Directory is a great tool to connect with old and new Eagle friends. Again this year, we are offering the student directory in a convenient digital app that works on your Apple/Android devices and home computer.

Here are just a few great features of the app:

- The app is completely secure and accessible by **only** those listed in it!
- You can search for students by class or name!
- You can call and email by clicking on the links within the app!
- It's always with you & you don't even need an internet connection after your first log in!
- If your contact information changes during the school year, it can be easily updated!

Instructions on how to use the app will be sent to users once all the information is uploaded.

Now it's time to fill out your contact information. Please write **CLEARLY** to ensure accurate information. Also, keep in mind that the information is simply to be used to connect with Eagle families. This is **NOT** an emergency form, so you may not want to list every single number you have. **Fill out this form TODAY and send it in with your payment in an envelope marked "Student Directory" no later than September 23rd. This can be sent to school with your student.**

For questions, please contact Casey Danza at eagledirectory@gmail.com
