Planning and Evaluation

The Board of Education (the Board) of the Bethlehem Central School District (the District) recognizes that comprehensive program planning and evaluation are essential educational practices allowing for informed decision making by both staff and the community. Wherever possible, community and staff expertise will be used in the District’s planning and evaluation process.

To these ends, the superintendent shall:

1. develop a process by which program areas are budgeted;
2. develop three to five year enrollment projections; and
3. implement evaluation procedures for new and existing programs.

The Board and the superintendent will review all program plans, evaluation designs, and reports for information and/or acceptance.

Objectives, Program Measurements, and Schedule of Reports

Consistent with the Board’s belief in comprehensive planning, the superintendent shall facilitate the participatory development of District goals on a biennial basis. The superintendent shall report annually to the Board outlining the effectiveness of programs in meeting their objectives, per midyear/end-of-year goal assessment reports.

Adoption date: June 19, 2002
Re-approved date: November 28, 2018
