

BCHS ENVIRONMENTAL CLUB NEWSLETTER

November 17th, 2020

Welcome to the Environmental Club's First Newsletter!

Who are we?

Hi, We are the Environmental Club at the High School! We advocate for environmental justice and try to educate our community on how to be more eco-friendly. In the past years we have organized the plant sale, volunteered at the fall and spring recycling drives, worked with elementary students, helped with in school recycling, as well as helping our school be more sustainable by replacing plastic straws for paper ones. This year we are meeting remotely and plan to continue advocating for the Environment. We welcome any current high schooler to join! If you would like to join, our Google classroom code is pw7u7eh.

Our Goals this year

We plan to do our annual plant sale for a fundraiser for our club in December! We also are planning on doing presentations with the elementary schools in the district to talk about how the kids can be environmentally conscious at a young age. Our goals are to make everyone conscious about what they are doing to potentially harm the environment and ways to make everyday life more environmentally friendly. Some topics we are planning on talking about for future newsletters are: environmental justice, environmental racism, global warming, the negative effects of fast fashion and more! We hope you're as excited as we are about our new newsletter! Stay tuned.
