

STUDENT DRIVERS

In its discretion, the District may permit licensed student drivers to drive themselves to the BOCES Career and Technical School to or from school.

As a condition of a student driving himself/herself to the BOCES Career and Technical School, the District requires written parent/guardian consent and liability release in the form attached and students must also read and sign the form. If a student wishing to drive himself/herself to the BOCES Career and Technical School is over the age of eighteen (18) or is otherwise emancipated, only the student (not the parent/guardian) needs to sign the Release Agreement.

The District Superintendent may develop administrative regulations pertaining to student drivers.

Adoption Date: July 1, 2009
