Counseling Plan 9-12

Bethlehem Central High School
Delmar, NY 12054
Bethlehem Central High School Counseling Center Philosophy

The Bethlehem Central High School Counseling Center implements a school counseling program that promotes and enhances student achievement and reinforces the Bethlehem Central School District’s mission statement and goals:

“Children and learning are the heart of Bethlehem Central. We cherish our students and challenge them so they develop a foundation to become thoughtful, responsible individuals. Through leadership and integrity, we pledge to provide this education, encouraging all students to reach their potential.

To fulfill this mission, the Bethlehem Central School District will use the following goals to guide our work:

Knowledge: to improve learning and achievement for all students.

Character: to foster a positive and safe school culture and environment.

Value: to manage and improve the quality, cost-effectiveness, and efficiency of the District’s current and future operations.”
Philosophy continued:

The mission of Bethlehem Central High School’s Counseling program is to provide all students with a comprehensive curriculum centered around relevant activities that encourages the highest level of student achievement in academic, career, and personal/social domains. It is aligned with the American School Counselor Association’s (ASCA) National Standards model for a comprehensive developmental program:

School Counseling National Domains and Standards
The National Standards for School Counseling Programs facilitate student development in three board areas: academic development, career development and personal/social development. Following are the nine national standards adopted by New York State.

Academic Development
Standard A: Students will acquire the attitudes, knowledge and skills contributing to effective learning in school and across the life span.
Standard B: Students will complete school with the academic preparation essential to choose from a wide range of substantial post-secondary options, including college.
Standard C: Students will understand the relationship of academics to the world of work and to life at home and in the community.

Career Development
Standard A: Students will acquire the skills to investigate the world of work in relation to knowledge of self and to make informed career decisions.
Standard B: Students will employ strategies to achieve future career success and satisfaction.
Standard C: Students will understand the relationship between personal qualities, education & training and the world of work.

Personal/Social Development
Standard A: Students will acquire the attitudes, knowledge and interpersonal skills to help them understand and respect themselves and others.
Standard B: Students will make decisions, set goals and take necessary action to achieve goals.
Standard C: Students will understand safety and survival skills.
Activities
PARENT/ STUDENT ORIENTATIONS

Entering a new school year can be a challenging experience for students and parents. As a way of assisting students transitioning into a new school and those who are transitioning from one district school to another, the counseling department has developed a series of orientation programs.

Information is disseminated through a series of programs and classroom presentations for students and their parents. Parent meetings are planned to inform them of school expectations and procedures, so that they might play an active role in helping their children attain optimal academic success.
Middle School – High School Counselor Meeting

**Target Grade:** Incoming 9th Grade  
**Time Frame:** August

STUDENT INTERVENTIONS

Students come from a variety of backgrounds with varying home and life experiences. Problems at home, conflicts with peers or teachers, and learning disabilities are all examples of situations that may affect a student’s ability to learn. When these issues arise, the Counseling Center has a variety of ways to deal with them. These can include interventions within the school, or referral to outside agencies.

In-school interventions may consist of, but are not limited to, crisis counseling, individual counseling, and referral to the Pupil Services Team (PST) or referral to the committee on special education.

Sometimes issues that students and families deal with are beyond the realm of what the school is able to offer. When this arises, referrals are made to community agencies, outside counseling, or other intervention services, such as a PINS petition.
### Pupil Services Team

**Target Grade:** 9-12  
**Time Frame:** School Year

SCHOOL SUCCESS

The ultimate goal of every educator and counselor is to help students achieve mastery of the curriculum and graduate from high school well prepared to meet the rigors of post-secondary education, the military, and/or the workforce. Improving communication between home and school enhances student success in school. This is provided with regularity throughout the year in a myriad of ways. Not every student learns in the same way, so a variety of supports are needed to help and encourage every student to achieve school success.
## Cumulative Record Maintenance

### Preparation time: 5 minutes
Career, Technical and College Planning

It is the responsibility of the Bethlehem’s 9-12 Counseling Program to prepare students for life after high school. This involves making parents and students aware of academic requirements as well as providing appropriate and rewarding experiences and skills to students that will prepare them for college and careers. The high school counselors provide transitional programming at every stage, with the ultimate goal being the student making the successful adjustment from high school to college, the military, or post-secondary employment.

Counselors develop appropriate schedules for students in accordance with the state and local learning standards as implemented by the New York State Department of Education. A variety of activities are offered to students and their families in order to develop career and college awareness and facilitate post-high school planning.
# Course Selection 9th-11th Grade

PROFESSIONAL DEVELOPMENT

The Bethlehem Central Counseling Center staff understand and promote the importance of professional development. Activities such as attending local, state and national professional organization meetings and workshops (i.e. technology, suicide awareness) and staying current with best practices help provide counselors with new and innovative suggestions for evaluating and improving the program.

Counselors are committed to supporting the counseling profession by sponsoring internships through area universities. Counselors take advantage of after-hours training to enhance their career exploration skills in order to support the high school’s 21st century learning goals.
